

Baltimore Underground Science Space (BUGSS)

A space for Creative Biology

Baltimore Underground Science Space (BUGSS) seeks a part-time lab instructor to teach “LEAF in the Lab” Summer Camp.

Details

- 15 students
- Ages 9-13
- Meets at BUGSS (101 N Haven St, Baltimore)
- July 5th-28th
- 9AM-12 PM
- Supported by 1-2 teaching assistants

Position Description:

The Science Instructor will work closely with BUGSS to implement a learning experience for students who are part of the LEAF (Latino Education Advancement Fund) program (<https://www.leafedu.org/>). Our goal is to present hands-on, creative science activities that engage and excite students from diverse backgrounds. The Science Instructor will implement a hands-on science curriculum, designed by the BUGSS team.

Lessons will be 3 hours each day. The instructor must have basic proficiency in biological laboratory techniques and be comfortable leading a group of 15 students at a time with support. The instructor will be supported by three teaching assistants who will be responsible for providing instructional support at the discretion of the instructor.

Specific Qualifications

- Bachelor’s or graduate degree in science field (required).
- Research experience working in a basic science lab setting (required).
- Experience working with elementary, middle and/or high school students (required).
- Experience leading groups of students as a teacher or instructor (highly preferred)
- Experience with basic lab safety requirements and procedures (biosafety level 1)
- Strong organizational skills
- The ability to and enthusiasm for interacting with diverse individuals

To apply:

Please send a cover letter and a resume/CV to Lisa Scheifele, Executive Director, at lscheifele@bugssonline.org . The position will remain open until filled.
